SUPPLEMENT TO
REPORT NO.Refining

1. During the month of June 1951 Donau Chemie A.G. supplied the SMV with a total of 295,740 kilograms of sulfuric acid. The following figures show how this amount was allocated to the refineries:

<u>Refinery</u>	<u>No. of Kilograms of Sulfuric Acid</u>
Korneuburg	31,150
Voesendorf	45,810
Moosbierbaum	15,420
Nova Denow	93,960
Kledering	47,810
Shell	31,310
Vacuum Oil Company	30,280

2. Sulfuric acid deliveries from Donau Chemie A.G. to the SMV during July 1951 totalled 218,710 kilograms. The following figures show how this sulfuric acid was allocated to the refineries:

<u>Refinery</u>	<u>No. of Kilograms of Sulfuric Acid</u>
Voesendorf	47,370
Moosbierbaum	47,050
Nova Denow	31,470
Kledering	31,360

Pipe Shipments from the USSR

During the period from 30 May to 12 June 1951 the SMV received delivery of the following pipe shipments from the Soviet Union:

- 8 carloads of pipe, weighing a total of 174,760 kilograms, from Taganrog.
- 7 carloads of pipe, weighing a total of 167,590 kilograms, from Taganrog.
- 3 carloads of pipe, weighing a total of 49,640 kilograms, from Mikopol.
- 2 carloads of pipe, weighing a total of 55,950 kilograms, from Khrompik.
- 5 carloads of pipe, weighing a total of 76,890 kilograms, from Zahoni.
- 3 carloads of pipe, each section measuring 273 mm x 105 mm, from Kuybyshev.

Pipe Shipments from Czechoslovakia

The following shipments of pipe from Czechoslovakia were delivered to the SMV Central Warehouse, Neusiedl a/d Zaya, between 30 May and 12 June 1951:

- 3 carloads of pipe, containing 295 sections and weighing a total of 55,740 kilograms, from Komotau.
- 1 carload of pipe, containing 233 sections and weighing a total of 20,170 kilograms, from Komotau.
- 2 carloads of pipe, containing 103 sections and weighing a total of 52,470 kilograms, from Ostrava.
- 5 carloads of pipe, containing 618 sections and weighing a total of 111,120 kilograms, from Ostrava.

Other Import Shipments

Between 30 May and 11 July 1951 the SMV received delivery of the following miscellaneous import shipments:

- 2,000 pairs of rubber boots from the Gottwaldow firm in Czechoslovakia. ✓
- 2 carloads of caustic soda from Tovarno Nazodu, Mistenice, Czechoslovakia. (1) ✓
- 1 carload of tools, weighing a total of 1,583 kilograms, from the Sergin factory in the USSR. ✓
- 2 carloads of solvents, weighing a total of 30 tons, from Ruhland, Eastern Germany. (2)
- 2 carloads of paraffin, weighing a total of 20,940 kilograms, from Hegye-shalom, Hungary. (3) ✓
- 1 carload of machine parts, weighing a total of 5,230 kilograms, from the Hostine firm in Czechoslovakia. ✓
- 2 shaping machines, model SP 250, weighing a total of 2,510 kilograms, from the Kova machine factory in Prague.
- 1 carload of Skoda automobile parts from Prague.

SMV Scrap

25X1A

6. Sipiagin, assistant director of the SMV Purchasing Office, continues to supervise the regular collection and loading of scrap metal from SMV installations for shipment to the Satellites. Scrap shipments to Czechoslovakia totalled three carloads during the week ending 29 May 1951; 23 carloads between 30 May and 5 June 1951; six carloads between 6 and 12 June 1951; and 26 carloads between 13 June and 11 July 1951. During the same period the SMV also delivered 16 carloads of cast iron scrap to the USIA-controlled Wiener Leichtmetallwerke G.m.b.H., Liesing.

SMV Purchases

7. During the period from 17 May to 11 July 1951 the SMV Purchasing Office paid cash for purchases from the following suppliers. All USIA-controlled firms in this list have been noted by an asterisk. Unless otherwise indicated, all non-USIA enterprises are located in the non-Soviet sectors of Vienna.

<u>Firm</u>	<u>Item Purchased</u>	<u>Payment in Schillings</u>
Trotzmueller (4)	One used Maybach motor	7,398.00
* Austro-Fiat	Automobile parts ✓	2,633.27
Wallner & Neubert	Valves ✓	800.45
Brown-Boveri A.G.	40 electric motors ✓	207,886.00

Satellite Purchases through the SMV

8. In addition to handling the procurement of the routine requirements of the various SMV installations, the SMV Purchasing Office has in the past few months arranged a number of purchases on behalf of Satellite agencies. Some-time in late May 1951 a Hungarian purchasing agent arrived in Vienna to procure equipment for Maszola, Ungarische-Russische Oel A.G. in Szoeny, Hungary. Through the cooperation of the SMV Purchasing Office the Hungarian buyer was able to purchase approximately 6,300,000 schillings' worth of equipment. The first shipment on this order, fully documented as Soviet military supplies, was dispatched to Budapest by DMSG barge on 21 May 1951. It included the following items: drilling equipment from Mannesmann-Traulz A.G.; Klingerit plates from Richard Klinger A.G., Gumpoldskirchen, Lower Austria; and casing heads and other oil field equipment from "Canada," Tiefbohrgeraete-u. Maschinenfabrik G.m.b.H. A second barge load of purchases for Hungary, including 15 tons of drilling equipment and measuring instruments from the "Canada" firm, was shipped from Vienna during the last week of May 1951. By 12 June 1951 Mannesmann-Traulz A.G. had delivered a total of nine carloads of drilling equipment, valued at 2,250,657 schillings, to Maszola A.G. on this order.
9. Meantime, SMV purchasing agents have been busy procuring drilling equipment and other oil field supplies on a 10,000,000-schilling order from the Polish Government. Commodities purchased on this order include drilling pipe from Mannesmann-Traulz A.G., various other types of oil field equipment from Teudloff-Vamag A.G., 800 meters of special chains from Franz Kohmaier, and 1,000 pilings and cross ties from J. & C. Reder, Vienna XX.(8)
10. The Czech Government recently purchased a complete seismographic unit from the SMV at a cost of 7,600,000 schillings.

25X1A

(1) ☐ Comment: This town cannot accurately be identified from available gazetteers.

25X1A

(2) ☐ Comment: This shipment of solvents was forwarded on an order from SMV Headquarters.

25X1A

(3) ☐ Comment: This paraffin was earmarked for delivery to the Okeros refinery in Stockerau.

25X1A

(4) ☐ Comment: Possibly Jakob Walter Troitzmueller, Vienna IV, Argentinierstrasse 26.

25X1A

(5) ☐ Comment: Possibly Walter Dressler, Vienna XV, Huglgasse 9.

25X1A

(6) ☐ Comment: Possibly Josef Strass, Vienna XVII, Herbeckstrasse 30, or Stephan Strass, Vienna I, Parkring 4.

25X1A

(7) ☐ Comment: This supplier cannot be identified from available reference material.

(8) ☐ Comment: These railroad cross ties presumably will be used in constructing spur tracks in the Polish oil fields.
